

34th Annual Meeting Recap

Mother Nature smiled on all of those in attendance of the 34th Annual Meeting of the Iron Blossam Owner's Association on September 26th which proved to be one of the more beautiful fall days this season!

Among those in attendance, owners had the opportunity to meet with Bob Bonar, COO and President of Snowbird, who gave resort updates and a review of current projects; Tom Jones, Snowbird's VP of Finance, who presented a review of the Owner's financial status (owners desiring a copy of the Independent Auditor's Financial Report may contact the Iron Blossam Owner Services department to receive a copy); Jim Maxwell, General Manager of the Iron Blossam Lodge, who delivered updates on many great improvements and renovations at the lodge; Bobby Coates, RCI Representative, who presented on website enhancements; and Linda Muir, LA Vocal Communications Consultant, who gave an update of current digital communication efforts and presented samples of enhanced owner communication pieces that are currently being used. Linda ended by reminding owners to register their email addresses online at www.ironblosam.net in order to receive regular updates about the Iron Blossam.

The meeting was then turned over to the James Hadfield, Iron Blossam Board President, to give the President's report which included the Iron Blossam's receipt of the Silver Crown Award from RCI and awards from Interval International for being a Select Resort and for Superior Service. James then recognized Gene Blackwelder, retiring board member, with an award and thanked him for his longtime service to the Iron Blossam. Owner voting was next on the agenda whereby Sandi Merrick was re-elected to the board.

The end of the election brought James Hadfield, President of the Iron Blossam Board, to the front to update owners on current events and thank everyone for their loyalty and support for the Association. He ended the meeting by reminding the Owners that their participation is important and that the Board appreciates the opportunity to hear directly from owners on concerns, positive commentary, and suggestions. Overall, it was a very productive and informative event!
